Ok, I'll boot up 7Zip and compress some elite ffacebook databank extractor v1.2 [NO SURVEY][HOT][DOWNLOAD LINK][NO VIRUS][2017]

It's hilarious how facebook is a multi billion dollar company and has so many hacker tool packs rewire the copper wire with the red wire and hotwire the databank reroute the TCP connection hacks.

Might not be allowed to be discussed here, but it's certainly no skid method. ?

Anyway, OP, please just go home. There's nothing for you here to give you what you need. This forum is friendly enough to most newcomers, but your question gets asked 10x daily on this subforum. This isn't hollywood, and there are no one-click solutions to breaking into people's facebook accounts. If you buy anything off this forum that claims otherwise, you're just going to get scammed.

Be sure to include some [CLEAN VIRUSTOTAL], [NOW FREE], and maybe a [COMPLIMENTARY 900000 OTHER TOOLS] tags in the thread title.
