BEFORE YOU READ THE REVIEW

Spoiler [\(Click to View\)](#)

-You must understand that the reviews I make are from my point of view.If I grade 3/10 that doesn't mean the method itself is bad, maybe for other people that method is 7, so keep this in mind when you're reading my reviews.

-My reviews will probably piss off many people and break some of their businesses ...or raise them.This means I will not debate with the sellers whether or not my reviews are accurate.Unless there is really something wrong I won't recheck my analysis.

-I review good and bad products, not only bad products as some of you may suspect.In the end, remains the decision of the reader if it's bad or good.

FAQ

Who am I?Spoiler [\(Click to View\)](#)

-A random guy that bought dozens of methods in the past few months from HackForums Sellers, and with disappointment, I announce that 90% don't work or they require insane hard work to even get them started. Highly "vouched" methods, with "valid proofs" from so highly upper-class "highly vouched members/old members" or how you want to call them, methods that look good on paper but on practice leave you with a sour taste in your mouth and with dust in your wallet.

-For those that keep asking me, "who I am and how I buy for months but my account is only for a week". I've been on hackforums for awhile now, my first account was around 2009 but was disabled due to inactivity. I kept coming back.Never engaged in topics too much.Until 1'st May when I decided I should make reviews about products.

What I'm going to show you?Spoiler [\(Click to View\)](#)

Few angles to look at when you're buying a method and few insights of what each method consists of.

I will keep this short and say this - you don't have to become an investigator but in the end is YOUR money and YOUR time you're going to throw at a random guy that promises you the moon.

Casino Insider:

Method

How much investment does it require?

Minimum of 400\$ is required.

Description: Double spend. Not unique but not popular either. The seller provides you the tools and software necessary to perform this double spend.

Risky. There is a risk involved, however, the sellers give you tips to minimize this to a minimum.

Provides the tools and some tips for you to target the right Casinos.

Time: -If you want to make your money back from buying the method the minimum investment I would say it's 400\$, you can try this with an even lower amount, but you would blow up your chance of making more. Probably that's why the seller recommends 500\$, which is perfectly fine. This method works better for people with lots of money, however, more money means you're subject to a higher risk.

-A bit of research and few safety steps need to be taken before initiating the method - nothing too hard.

-Withdrawing will result in waiting some time (and probably a phone call).

Personal review:

About the product:

Spoiler ([Click to View](#))

6/10

-High risk of getting patched. The more people will know about this the higher chances of getting patched.

-Double spend, it's well known in the bitcoin community but only in theory. The seller provides you some software and tips on how to perform this.

-Provides you the tools and tips how to pick the right casino.

-Blockchain Unconfirmed transactions will play a huge role in this. However, the seller provides you few tools to accelerate it and few tips to perform it better. Nothing new.

-Presents a risk, investment-wise and security-wise.

-Luck - will still play a huge role in this method and you may fail. However, the seller provides you tips and tools to reduce any possible risk to a minimum.

After you send the money to the Casino you'll have to follow a process.

-If this works, I doubt you'll manage to do it more than once per casino.

-Obviously, you need to be 18+ and prepare yourself to provide some documents in this regard.

-About the previous points, it is recommended to go full rogue, if you want to have more attempts.

-The payout may take up to few days due to some factors out of our control.

About the seller:

Spoiler ([Click to View](#))

3.9/10

This grade could've been higher or lower depending on his interactions with buyers. The thread is opened quite recently and seems to be closed, but so far:

-On few points, the seller is honest on others not so much.

-Doesn't provide proofs of earnings and says: gambling it's not [allowed in his country](#) and couldn't withdraw his money.

-Closes/reopens the thread. The thread state seems to be influenced by other people.

-He doesn't deceive his customers with false advertisement or expectations money-wise. But risk-wise yes.

-If you're new with casinos/bitcoin and with bitcoin transactions, you may get stuck. You may want to keep sellers info close.

This grade reviews his way of advertising, addressing to potential customers and his way of convincing them.

How is it risk free when you can go to prison because some multi billion dollar casino came after you.

Off the bat the title was a lie lol, not even going to go farther.

It's called risk free meaning the losses are low or nonexistent.

It all depends how you say it.

I am sorry but you are incorrect.

Risk-free means there is no risk, whatsoever, involved in any step of the method's execution.

Mr. Reviewer - May 20, 2017, 12:02 pm

that "risk free" he put in the title is only half true.
if everything goes well -> it turns into 100% whitehat
if something goes bad -> it turns into 100% blackhat -> risks

Hey, thanks for the review Mr Reviewer! It's very objective and I can agree and confirm all of them. I think that my ebook is the book with the highest "method" score out of all of Mr Reviewer's ebooks. I couldn't get vouches or proof of earnings because I am not a marketer pro

My thread was closed because I can't reopen it unless I am Uber. While it was opened I get many people wanting free vouch copies but had no interest in buying.

Now that Mr reviewer has given an objective vouch on my ebook, and the most recent update that it works, hope that a person or two can come purchase a copy :)

(May 24, 2017 04:27 AM)hopeforme Wrote: [CITE](#) Now that Mr reviewer has given an objective vouch on my ebook, and the most recent update that it works, hope that a person or two can come purchase a copy :)

It's not a vouch, it's a review.

hopeforme - May 24, 2017, 4:34 am

At least you know it's a trusted review instead of some scam ebooks who get their friends to fake vouch.

I don't really like giving out free copies because they keep trying to trick me and I can't really trust people in HF marketplace. I got finessed by the people whom I gave free copies to pretty much. They aren't interested to buy at all.

I'm glad that even though Mr reviewer didn't give a 100% positive review, it's a trusted one. It vouches that the method works. All that's left for you is to buy my book and make it a win-win.

The reason why a minimum of \$400 is suggested by both me and Mr reviewer is because I made my price of my ebook \$200. So just double that = 400.

Theoretically if I made my ebook price \$50 you can have a "minimum investment" of \$100. But why waste time with small amount?

So it's just a double spend on a casino which has been around forever using some dodgy infected software and a risk of bad SE.

A month ago:

\$400 is a big sum of money for me.
Makes \$1000 a day.

I can't use the method myself lol because of 2 reasons

- 1) I can't provide my real info because gambling is banned in my country
- 2) I don't have money to invest myself (my \$400 is still gone, iirc nobody bought my book yet zzz)

I don't even fulfill the criteria to use my own method. But you can. If you can help me, I help you more. We both earn money. That's my policy. I'm very whitehat.

But I'm noob/newb at this selling/marketing/ebook thing. I'm trying my best here but all I get are people who want free copies or cynical comments like yours :/

Meanwhile fantastic ebooks like Dragons Gate (also reviewed by Mr reviewer)with all form and no substance are the ones making the money :/

I swear to god, if I could use the method on my own I wouldn't even make this ebook, just spam it myself. Why the fck would I share something like this with random cynics who aren't even family & friends. But because of my limitations I can't. This will probably be one of the rarest times you'll find an actually working ebook on HF dudes. Just take that leap of faith.

I'm still forcing myself to make that \$400 back from this website. It's my personal challenge. Come on, help me.

Why don't you just start out with \$5 and keep doubling it until you reach your goal..? Obviously, if it makes so much money so fast(1000\$ a day) It's better than having a job, making \$30,000 a month is extremely good its more than a quarter of a million dollars a year.

Haha, \$1000/day is false advertising :p I just include in my signature as clickbait but it isn't working ?

It assumes you have \$500. To double to \$1000. It's possible. But I don't have \$500.

I can't withdraw payouts safely within a certain limit because of the fact that there is probably a cap where I need to input IRL information which is a huge limitation for me specifically. Like, if I chunk in \$100 and earn \$200, but I get asked for personal info to withdraw (standard procedure for standard casino sometimes), I can't provide the info. Then RIP \$100/\$200! White hat online gambling is literally banned for me. I literally can't make money from this legally lol. But you can.

Even so, theoretically Spamming the "doubling" works but it's slow AF to start from \$5. I have other methods that I'm abusing and making money from and is faster (and there's no fucking way I'm sharing them). I'm making back my \$400 now since HF seems like a hopeless avenue. But I'm still making it a personal challenge to sell 2 copies.

False advertising? Yeah, no fucking wonder no one wants to deal with you. Pathetic.

(May 26, 2017 07:29 PM)Mark Zuckerberg Wrote: [\[CITE\]](#) False advertising? Yeah, no fucking wonder no one wants to deal with you. Pathetic.

How pathetic must I be when I admit to "false advertising", right? Even though 99% of marketers do it themselves.

My statements are not untrue. You CAN make \$1000/day, as long as you have \$500 as capital (put in \$500, take out \$1000 assuming you successfully perform the method). The risk is low (not 0%, but I personally find it outside the scope of discussion, as it is simply the nature of being profitable that the risk arises - nothing WRONG with the method per se).

If I'm honest enough to DECLARE that I'm "false advertising" myself, then I'm not pathetic. Maybe I am because I haven't gotten a single buyer yet, and maybe no one wants to deal with me because I suck at pulling wool over people's eyes and singing them sweet words, but it only shows that I'm more honest, not less.

Anyway, I've added a couple of words to my signature to make my advertising an honest advertisement. Really, there were just space constraints in my signature.

Nobody is buying my ebook. People who expressed interest and PMed me eventually stop replying to PM or not PM me back after they became "busy". I even offer to TeamViewer for them! Wtf!

When I go to deal disputes and see people get scammed by ebooks that are already reviewed 0/10 by Mr reviewer, I can't say I sympathize with them. I hate scammers so much but if they buy shit ebooks, they deserve it. That's how frustrated I am. Making DD for \$20 lmao
