Thread: [Scammed 70\\$ by Fiz SELLING CARDED AGC UID=2553288 \(1000 +rep\)](#)

Roberto Scorpius Malfoy - May 20, 2017, 8:00 pm

User: <https://hackforums.net/member.php?action=profile&uid=2553288>

The deal was his 50\$ AGC against my 35\$ BTC. (he had two cards)

After i recieved the codes from him everything was working. But after a few hours the codes were unredeemed. (His supplier must have been doing a chargeback)

The first card <http://prntscr.com/fa8rt9> (Proof of code not working <https://vimeo.com/218320198>)

The second card <http://prntscr.com/fa8wv5> (Proof of code not working <https://vimeo.com/218320519>)

EDIT

User put me on the ignore list without answer on any of my pms <http://prntscr.com/far44r>

EDIT: 2017-08-29 After a few months user finally for the first time responded to the scam report saying this (Check spoiler)

After he sent me this pm he added me back to ignore list

I don't think he is interested in replacement or refund.

"Most of you will say that he is legit and its not worth for him to scam for 70\$. Well i feel the same but the guy has not been responding to my Pms according to this and i asked him "how can we resolve this" he was reading my pms but he didnt reply. He has been online two times since this happened and has not been replied. So i felt that i had to make this scam report."

Thats just sad. This is the second time i get scammed on HF.

This is unfortunate. Personally, I'd say: dox him, message him his address, see if he replies to that..

If he does, you've been scammed.

If he doesn't, he's probably just AFK

Why would i waste my time to dox him? I dont even care about losing these money. I made this report to prevent him from scamming other members.

User put me in the ignore list he never answered any of my PMs and now left a negative reputation on me. DO NOT DEAL WITH HIM. HE IS A SCAMMER.

Has over 1k rep and scams for \$70?!

You could easily make more than that by doing legit services I don't understand why people even bother to scam sometimes.

What do you mean the codes was redeemable a few hours after you purchased them? Why didn't you just redeem them?

Because i wanted to resell them. I bought 3 codes from him. 1 of them was working when i try to reedem it amazon says "Already redeemed to another account

We had a problem redeeming your gift card. This gift card claim code has been redeemed to another account."

But the two other cards were Carded or his supplier made a chargeback.

Just curious, Why would you buy an amazon card just to resell it?

Its complicated mate. My friend gave me 600 USD to buy him some UK cards and i promised him to buy the cards for 65%

Fiz sold the US cards for 70% and i was like let me buy them for 70% and resell them for 75% so it can backup the 65% uk cards im buying for my friend.

Sorry that you got scammed. The amount of rep, post counts and user status doesn't have much to do with reliability. Anyone can boost or fake those numbers to appear like a trustworthy member. Granted most people that do this, scam for a much larger quantity but still who knows how many others were victims of this. Still hope it gets resolved for you but if not at least this is out on the forums now. Always research the seller and buyer before doing business.

I am not sure what the rule says when bumping an old thread like this, but the user found a way on how to make money as you can see on this thread
<https://hackforums.net/showthread.php?tid=5870867>

Asked for a refund but he didn't reply.

The reason I bumped this thread is that it's so frickin annoying to see a guy scamming and then log in to this forum and make threads like nothing happened.
