I tested the software after purchase. Stealer does not work, there was not one password from firefox, chrome or opera. Also, the log came only once and the log is not complete. Somehow it's hard to sell a product that does not work.

Looks nice, does it have a webpanel?

chukyxmi113r - June 12, 2017, 9:12 pm

Deal with caution. OP sold fake botnet to me and still had the guts to neg rep me. See scam report below
