Thread: [100% FREE & Unlimited Fake Traffic Bot 1.0 - Proxy Support](#)

phpdevsami - May 23, 2017, 2:11 am

Haven't posted anything in a while though I'd share something here since section is inactive as hack as of lately ?

Unlimited Proxy Visitor 1.0

Support:

- Fake Referrals
- Fake UserAgent
- Proxy Support
- Runs in background
- Shows details for each request

Virus Scan

How to use:

- Put all your proxies in proxies.txt file
- Put all your useragents in useragents.txt file
- Put all your referrals in referrals.txt file

Visit the directory where you've downloaded the file and executed proxybot.py file and you're set to go!

UserAgents list:

<http://www.useragentstring.com/pages/useragentstring.php>

Extract proxies:

<https://wiremask.eu/tools/proxy-extractor/>

Use this link to extract proxies from data you provide if you already have proxies in proxy:port format then you don't need it anyways.
