Thread: [Crypto Currency Suggestion](#)

Eagerkid - May 23, 2017, 9:53 am

Would be cool if a rotating banner (like the NYSE) was implemented with a few main currencies. Like the top 10 and have their prices listed, and below I have added a arrow where it could be added

Elitas - May 23, 2017, 9:56 am

It would be cool, and definitely possible, but would have to be programmed fully by Omni, and all the software ran on this server.

Yes, these images can be got online, but that would interfere with the https.

Jaxo - May 23, 2017, 9:58 am

I like that idea, would be cool to see that real time.

M?xim - May 23, 2017, 9:59 am

Not sure what NYSSE is, however, is this suggestion in anyway related to this?

<https://hackforums.net/showthread.php?tid=5520682>

I remember there being problem with implanting that.

V For Vendetta - May 23, 2017, 10:00 am

<https://hackforums.net/showthread.php?tid=5520682>

I remember there being problem with implanting that.

Think he means New York Stock Exchange (NYSE).

Eagerkid - May 23, 2017, 10:01 am

(May 23, 2017 09:59 AM)M?xim Wrote: [\[CITE\]](#) Not sure what NYSSE is, however, is this suggestion in anyway related to this?

<https://hackforums.net/showthread.php?tid=5520682>

I remember there being problem with implanting that.

I didnt read that, and yeah it would be sort of like that. I meant the NYSE but added a extra s

Elitas - May 23, 2017, 10:11 am

(May 23, 2017 09:59 AM)M?xim Wrote: [\[CITE\]](#) Not sure what NYSSE is, however, is this suggestion in anyway related to this?

<https://hackforums.net/showthread.php?tid=5520682>

I remember there being problem with implanting that.

Yes, which relies on referencing an image on another website which breaks https.

Kill Joy - May 23, 2017, 10:15 am

I really like this idea. If implemented, what exchange would we get the information from? Or would we get it from a mix of exchanges like coinmarketcap?

DoubleClickBTC - May 23, 2017, 10:20 am

I really like this idea, Hope its not complicated to add

MrJamieMcC - May 23, 2017, 10:21 am

I like the idea of this. I support this idea :)

Malevolent - May 23, 2017, 1:30 pm

This is both a good idea and very easy to implement with MyBB.

BrandonBoyd - May 23, 2017, 1:40 pm

I agree with it :) it will be a great addition

Trappy - May 23, 2017, 1:42 pm

That'd be cool, a little moving ticker.

blank. - May 23, 2017, 1:43 pm

That would be nice, just getting it to display real time would seem to be a little work.

Decim - May 23, 2017, 2:32 pm

While it would certainly look nice, I don't see much of a use for it as that section isn't really used for real-time exchanges.

Eagerkid - May 23, 2017, 2:32 pm

(May 23, 2017 01:43 PM)blank. Wrote: [\[CITE\]](#) That would be nice, just getting it to display real time would seem to be a little work.

Yeah I guess it will be pretty hard to implement it so it likely wont go through

???? - May 23, 2017, 3:17 pm

I like the idea of this.

It doesn't have to be real-time, on page load is enough.

Waiting... - May 23, 2017, 3:22 pm

Personally I'd suggest simply adding more cryptos to the Bitcoin Info page in the Extras, but going all-out like this would be really cool too, of course.

Eagerkid - May 23, 2017, 3:26 pm

(May 23, 2017 03:17 PM)scorpiOn Wrote: [\[CITE\]](#) I like the idea of this.

It doesn't have to be real-time, on page load is enough.

Yeah this would be perfect, and I think a lot of members would like this feature. Crypto is booming, not just in general but on HF so I think it would be very beneficial when people are searching through the section

Egregious Jr. - May 23, 2017, 3:36 pm

What's really the point of adding this? Just check coinmarketcap, I agree this would be cool but is by no means necessary.

???? - May 23, 2017, 4:09 pm

(May 23, 2017 01:43 PM)blank. Wrote: [\[CITE\]](#) That would be nice, just getting it to display real time would seem to be a little work.

he could take the lazy route and iframe coinmarketcap

i think he should just make it on load though.

Ghotti - May 23, 2017, 4:22 pm

I like the idea of this. I support this idea.

DenizZ - May 23, 2017, 5:39 pm

I love this idea. I'd be great addition to HF.

Poutine - May 23, 2017, 5:42 pm

I think its a great idea but... how are we supposed to draw a line on what currency we should display.

It will cause drama pretty quickly. I dont think Omni wants to be related on where members invest their money.

Eagerkid - May 23, 2017, 5:45 pm

(May 23, 2017 05:42 PM)Poutine Wrote: [\[CITE\]](#) I think its a great idea but... how are we supposed to draw a line on what currency we should display.

It should be the top 10 coins right now, If the coin isnt in the 10 top it shouldn't really even be looked at

Magicmann - May 23, 2017, 5:45 pm

Completely unnecessary. If you want to see values while browsing HF, just leave a tab open with Preev or your exchange of choice. Means extra load on the server for something that doesn't really make anything easier besides putting another liability on Omni.

Kenjataimu - May 23, 2017, 5:46 pm

I mean it seems that HF is becoming more popular among crypto enthusiasts.

Update the section a bit, maybe put some more limitations so we dont get the same threads every 2 minutes.

Eagerkid - May 23, 2017, 5:46 pm

(May 23, 2017 05:45 PM)Magicmann Wrote: [\[CITE\]](#) Completely unnecessary. If you want to see values while browsing HF, just leave a tab open with Preev or your exchange of choice. Comments like "completely unnecessary" are so bad. Like i could say HF is unnecessary, if you want to learn about cryptos go on google, if you want to interact with people go outside.

This would make everything easier, I can chat and answer peoples comments while seeing the price of a crypto. It makes everything so much easier

I am not looking at this at a developers stance because I dont code, so if there is a actual problem with it then so be it. Doesn't put a added liability on omni

Magicmann - May 23, 2017, 5:50 pm

I am not looking at this at a developers stance because I dont code, so if there is a actual problem with it then so be it. Doesn't put a added liability on omni

But the thing is, it IS a completely unnecessary addition. And I explained why.

It puts an added liability on Omni because it means more code to maintain, having to source prices from reliable sources, keep track of those sources to make sure they remain reliable, and do countless other things to make sure he isn't accused of any tomfoolery.

And you make it sound like it's so difficult to leave a tab open with Preev, or an exchange, or better yet, something Like Altpocket.

Eagerkid - May 23, 2017, 5:59 pm

I would like to hear other response, thanks for your input.

Code And you make it sound like it's so difficult to leave a tab open with Preev, or an exchange, or better yet, something Like Altpocket.

All I am saying is it would be a nice feature, and many other members agree. It might be added and it might not be we shall see

Magicmann - May 23, 2017, 6:00 pm

It definitely isn't going to get added. I really like your optimism though.

ZuGgY - May 23, 2017, 6:01 pm

This would be cool. I mean we do have one already but (A) This one only has BTC, where instead we can have multiple, and (B) hardly anyone visits this page (I'm assuming).

<https://hackforums.net/btcv.php>

Eagerkid - May 23, 2017, 6:02 pm

<https://hackforums.net/btcv.php>

Which is another reason it would be better if it was some how implemented on the crypto talk section :)

Caliban - May 23, 2017, 7:09 pm

If crypto gets bigger and bigger this would be a great implementation, i think the sections would have good activity

Xeenon - May 23, 2017, 7:31 pm

This is something I would love to see. Also one of the main reasons why I decided to add it onto the [Crypto Sector News // #1](#)

Kenjataimu - May 23, 2017, 8:32 pm

(May 23, 2017 06:00 PM)Magicmann Wrote: [\[CITE\]](#) It definitely isn't going to get added. I really like your optimism though.

well omni said he wants to implement an idea like this just wanted to find an api.

I like your pessimism though.

(Jan 11, 2017 01:44 PM)Omniscient Wrote: [\[CITE\]](#) I've actually thought about this. It would be nice if current BTC price was somehow automated into certain posts. I hate it when someone mentions value or predictions and doesn't say what current price is at.

We already have the code running to grab 3 sites BTC info.

<https://hackforums.net/btcv.php>

Here is a nice question. Is there any API's to get a historical BTC price based on date? Everywhere I look seems to be inadequate for a simple call returning price based on a single date or timestamp. If we can find one I can possibly work from it.

Magicmann - May 23, 2017, 9:52 pm

(May 23, 2017 08:32 PM)Thiizic Wrote: [\[CITE\]](#) well omni said he wants to implement an idea like this just wanted to find an api.

Well fuq me. I stand corrected.

BATHING APE - May 25, 2017, 11:33 am

Im not familiar with website design and server strain but im pretty sure a constantly updating animated marquee wouldnt be the greatest thing for the hosting provider. And also im sure it would bring up more suggestions of "this cryptocurrency needs to be added to the marquee"and stuff like that

Kill Joy - May 30, 2017, 2:59 pm

I don't want this suggestion to be forgotten.

TB12 - May 30, 2017, 3:02 pm

I like this idea, as long as Omni has the time do it I see no issue with this suggestion.

Eagerkid - June 1, 2017, 12:17 pm

Would be cool to see this come into effect

Kill Joy - June 3, 2017, 7:13 pm

Hoping to see if anyone else supports this idea. :)

Eagerkid - June 3, 2017, 7:30 pm

(Jun 3, 2017 07:13 PM)Kill Joy Wrote: [\[CITE\]](#) Hoping to see if anyone else supports this idea. :)
Certainly a lot of people would like it

But I don't think it's really all that possible according to some people who are referencing the forum code. (not much of a programmer so don't really understand it all)

But hopefully it can be done

?now - June 3, 2017, 7:36 pm

I thought of this idea while in the shower forever ago. Would fucking love this @omni

Edit: hf does have a bitcoin price check so this definitely is possible for grabbing the price wise

Eagerkid - June 5, 2017, 10:55 am

Yeah I noticed that we do, so if it was positioned in the section it would be much more useful

Omniscient - June 6, 2017, 3:26 pm

Quote:Would be cool if...

That's when it's a bad suggestion.

Quote:Personally I'd suggest simply adding more cryptos to the Bitcoin Info page in the Extras

Agreed. It's about time I work on that. But I think most of us have our favorite sites to get current pricing. Sites that already do a fine job. I just use a Chrome extension for now.
