You may want to edit your thread design to spell Future* correctly, plus it doesn't look like there's a difference in the 2 packages.

Purchased today. Just gave it a read and there's not a guarantee you will make thousands out of these methods but I do see the opportunity.

Only buy this eBook if you are willing to do a bit of work on start-up and maybe invest a small amount of money.

All in all the methods should work so good job OP;

Diamond and gold appear to be the same product?

TOS Says 60 days... whats the most we can earn to be applied to the refund? I am not spending \$45 to get a guranteed 10 cents in the course of 10 days.

TOS says :
Refund will be given after 60 days of no earnings

So if you earn a cent after 59 days, no refund for you.

(At least that's what I think)

Ok I bought this ebook and had a quick glance at it. Seems to be an old true and tried method for years. So there is nothing new in this. Same methods as many others but explained better is all and

some new vendors. Not sure I will use this to be honest as this area is not my cup of tea.

Please do your research before making accusations. There is no way to access an account with the same IP other wise it will show.

And if you are using VPN it will change all the time. I am sorry you don't have any friends to talk to and customers to deal with.

You and the op, are the same person.. no? Sure seems like it, could be wrong. I'm not staff, but would surely love to see proof of you making \$500 consecutively.. I honestly doubt that. But feel free to prove me wrong. How they say it, picture or it didn't happen?

Typical response when it comes to providing proof by the \$500 a day earner on hack forums. If you were really making \$3500 a week, you wouldn't be on here scraping for ebook sales bro.. sorry, just the reality of it. And you can't say that if you provide proof, that it will give away the method.. impossible. Because you can easily block things out while making a video. Anyway, I wasn't expecting to see any proof tbh, you see the same excuses most places money making ebooks are

sold. Good luck nonetheless.. no need for the "we shall see", if you can't provide solid proof to a statement you literally just made.. then I don't feel comfortable spending money on said product. You ignored my other question btw.

You seem to know a lot with your 6posts. First, im not obligated to post proof. And I said I maybe will, but posting proof sometime will actually reveal the method, and in this case, it will, so wtf u crying about? Like said, I can post paypal later on. Second, if youre not interested to buy, it is highly recommended to just keep his mouth shut, it will be a big favor for all us.

"Highly recommended to keep his mouth shut" .. is that even English? You don't seem to seize getting emotional over what language people say on the internet.. you should work in that, it's no more that serious. But you're right, you're not obligated to do anything, but die.. that's the only thing guaranteed in life. I find it amusing how people brag about how much they supposedly make, then it's ohh.. I'll post proof later.. but will sit on the forum for hours or I can't make a .gif showing me in my account but can post a picture that can easily be edited. Stop playing yourself bro. What does me having 6 posts on this forum have to do with anything? What do I need hundreds of posts, and a Uber or leet tag to make me cool? Lol. I actually have a life bro, I use the internet to make money, learn things and entertainment occasionally.. Posts and awards on a forum doesn't mean anything to me. We have way different ambitions in life. Anyway, as I said on the other thread.. I'm done. We love obviously won't see eye to eye, you obviously aren't willing to show any real proof or hit up tv and compare earnings. That's the different between me and you.. I can back up what I say. I haven't even told you my weekly earnings, because I'm not into bragging,.. especially on an internet forum to a bunch of kids I don't even know.. but I GUARANTEE that theyre higher than yours. ?
