2. Why do you want it: Sincerely, I'd like it because I don't own too much BTC, nor altcoins anymore, and I don't really want to get into them currently. Also, if, in the future (as I hope), I get more active, the self ban as well as the bigger PM space could be useful.

ZooXoo - May 29, 2017, 1:21 am

1. What do you want: I want the L33T upgrade sir.

2. Why do you want it? To be honest I feel like I want the L33T upgrade to be more trusted. My goal is to achieve Ub3r, and before I can be Ub3r I need to be L33T. The reason why my goal is to be ub3r is because I want to open a currency exchange service. I want to gain trust and be known by members so that's why I want L33T. Honestly I've been active in the Crypto Currency section a lot and also helped members and came with good ideas on what to invest into and what not to invest into when it comes to the altcoins. I also want an HackForums XMPP account so I can deal risk-free here on HF without getting scammed outside or via PM since I'm more into exchanging alt-coins and investing. I also want to get rid of the advertisements on HackForums, and not but least I want to self-close my own threads. One of the reasons I also wants L33T is I want to have the ability to give neutral and positive out. This is just an example if I gets scammed by someone on here I can leave a reputation including the link so members on here is warned, it's just an example. When you're a upgraded member I feel like you get more respect than not being upgraded to L33T / Ub3r.

3. Contributions: I actually signed up on this forum for the Crypto Currency section, I haven't made any contributions yet to HackForums, but I will do it for sure in the future.

Thank you for taking the time to read this

Sincerely,

ZooXoo. ?

severos - May 29, 2017, 1:58 am

1. What do you want: 13\$ BTC
2. Why do you want it: I'm saving up to propose to my girl, and getting it in BTC will make things faster, had 0.4BTC way before the price jump, now it's worth around 900\$, so who knows how much those 13\$ will turn to by the time I get other stuff ready? :D

I--I - May 29, 2017, 6:47 pm

1. What do you want: Ub3r Upgrade
2. Why do you want it: Well I just got approved and I really need to be Ub3r, I've been here long enough. I'd like to experience more of HF and Ub3r seems like the next logical step, then maybe join

a group and start a selling some things on the market.

Legitimately - May 29, 2017, 6:51 pm

1. What do you want:

I'm not sure what the difference is between L33T and 3PIC but I wouldn't mind either of the two. ?

2. Why do you want it:

I would like any of the upgrades because I would love to be able to post in the Counter Strike section as that is my favorite game and I'm unable to post there and multiple other sections because of my prestige level.

3. Contributions:

I haven't made any contributions yet but I do plan on making a few in the future.

That, or I'd like to put the money towards ordering some samples for my clothing company. My company's really growing and a lot of why is because of the support I've gotten from fellow members of the HF community.
