The site is growing rapidly with the help of Youtuber [Boosted](#).

Our goal is to create a place for car enthusiasts around the world to share their passion with one another.

We would appreciate any suggestions you have.

We are also hiring staff, so if you're interested let me know.

It looks great and I like the modern feel that other forums lack, however, I would review the yellow color scheme. Maybe it's just me, but that shade of yellow and black contrast too much for my liking.

I am just wondering what you need staff for. You only have 1 thread and 1 post.

As for the colour palette used, you may want to use other combination.

For the ones saying rapidly, look at the main page. I would edit my post if I could.
