Is it only me or are there people who make really Shitty Stealth Servers advertising them for 2 Month KV Life! when in reality you cant last a hour on them and they just end up Bricking your console

What are your favorite Stealth Servers to use?

I know mine are defiantly

Deception Live
XBLBallin
Ninja Stealth

JMPRockFm - May 29, 2017, 6:02 am

They say that they last because they want your money some stealth servers even take your KV(Not all does).

I've used a lot of servers in my days I don't really go on xbox anymore.

I would recommend Ninja, Teapot(As Improved there server) that's the only ones I really know of.

iGotArrestdLOL - May 29, 2017, 6:03 am

TeapotLive, XBLSE@Infernus(2017 version), YesYesModz (if ur poor but want decent kv)

Deception Live lie about their kv life, they say its about 6-14 days, i lasted 5-6 hours on a fresh kv i got from my old console

pieguy321 - June 5, 2017, 1:34 pm

xbOnline is about to kick off, I would strongly recommend that. Or ninja. xbonline.live

tastypp - June 8, 2017, 11:36 pm

they only say that to advertise paid subscription

more free users = more chance of ppl goin paid version

iampoor - June 8, 2017, 11:38 pm

:/ ive seen a video of the GTA 5 built in Menu, it looks like the best out with a GTA 5 gamertag changer and everything, im not sure if they have any COD Off-hosts thought.

Purfew - June 21, 2017, 12:03 am

XbOnline is about to be released

Don't quote me on this, but I think the main reason why they don't have cheats at the moment is because they are still in beta, and once it's out of beta I think they will have cheats in.

But I did hear that "Anyone who had previously bought time on Tampered Live will be rewarded the remaining time back on xbOnline"

juulstar - June 22, 2017, 7:34 pm

scavskinner4233 - August 22, 2017, 8:24 pm

Dumb question but can you not load your own cheats anymore? Only whatever the server has?

juulstar - August 23, 2017, 4:46 pm

I like Teapot, v3 just came out and the ban bypass is sexy asf.

if y'all want me to crack some shitty stealths just ask, maybe I'll make a cracked megathread.
