Mizzy - May 26, 2017, 8:14 am

Hello , this is my second Shopify store that I have made.
My first one is on auction here in Hackforums , I'm in contact with some users.

The store name that I am selling now is : COPIOM

The store doesn't contain a theme from Shopify Free Themes.

The store COPIOM has more than 85 products.

Niche is great for this time of year , summer.

It's about Sunglasses for Men , Women and Kids.

Products are from Aliexpress.

The Store uses the Shopify App Oberlo witch helps you "find" the product on Aliexpress really easy.

You will just click the products and it will take you to aliexpress.

I will help you with every question that you have.

I will be available on Discord 10 hours a day.

Price is : 50\$

For the LINK , PM me or reply.

STORE SOLD FOR 50\$ BTC.

What does the name mean? Is it the brand of the sunglasses?

It's not the brand name.

It doesn't mean anything, just a store name
