You should change the name of your cheat. There's already a cheat with a similar name.

Both have 'paste' in the name and in with 'y.'

Way too similar.

Anywho, I don't know your name on Discord and we're not in any Discord's together because Ozar banned me.

Hmu so I can never talk to you but have you on my friend's list.

Only reason i added paste after was because the cheat is actually pasted.
