Title: Caiky's Super Spreading Guide

Price: \$15

Pages: 8

Author: [Caiky](#)

Reviewer: [Chief.](#)

Introduction: Upon opening the eBook you are greeted with a short introduction paragraph that includes a brief explanation of the methods you will find in this guide.

Methods: The methods included in this eBook are insanely simple to follow and understand and Caiky has spent great amounts of time laying everything out in a nice and easy to read manner. He explains each method clearly and fully leaving you with little to no questions. I personally have tried out a few of the methods he mentions and they do indeed work. Any noob will be able to properly and easily execute these methods. If they need help Caiky is quick to reply to messages and help.

Layout: Caiky has made this guide as simple as possible for the reader and that includes the layout of the book. It isn't snazzy or shiny nor does it have an awesome design, but that's okay because it's meant to teach you not appease your eyes. I actually like the more simplistic and minimal design this eBook has.

Price: For the low price of \$15 you can own this eBook today. It includes 5 Methods meaning each method is \$3. That is an absolute steal. Since these methods require little to no investment you will earn your money back easily(if you're spreading for money purposes).

Conclusion: To wrap up this review I will say that Caiky has done a fantastic job writing this eBook and making it easy to read and execute. He has answered any questions I have about the methods included. This eBook is definitely worth the \$15

Does this have anything to do with: greenlight, YouTube,freelancer, or fake programs on forums ?

One of the methods does include youtube. However, it is a better way to spread with youtube compared to just uploading a video and hoping for the best.
