Thread: [\[Tutorial\] Myanimelist / MAL glow effect](#)

X X X X - May 26, 2017, 10:11 pm

Decided to make a tutorial on this, you can see the effect on this MAL here:

<https://myanimelist.net/animelist/Nevalopo>

Go to your CSS edit page and add this to the bottom of your code:

PHP Code

```
<?php
@keyframes falling {
  0% { background-position: -485px 487px, 485px 487px;}
  100% { background-position: 0 0, 0 0; }
}

@-webkit-keyframes falling {
  0% { background-position: -485px 487px, 485px 487px; }
  100% { background-position: 0 0, 0 0; }
}

.list-container:after {
  position: fixed;
  display: block;
  content: "";
  left: 0;
  bottom: 0;
  margin-left: 0;
  width: 100%;
  height: 100%;
  background-image: url(https://i.imgur.com/qXF99dM.png), url(https://i.imgur.com/6UW6Jtt.png);
  animation: falling 15s linear infinite;
  -webkit-animation: falling 15s linear infinite;
  z-index: -3 !important;
  pointer-events:none !important;
}
```

If you're good at photoshop you can change the colors of the glow.

I am sorry I don't understand who that is but I'd gladly eat you.

Also nice tag.
