Thread: [\[5 SOLD / 1 LEFT\] How to make \\$300 daily from web hosts... simple and effective.](#)

5 SOLD. 1 LEFT!

Hello, I am selling a method that involves web hosts which can make you money. I have been doing this since January, and so far it has made be very quick money whenever I needed it. I am deciding to sell this method because I have a project that is currently paying more, so I no longer need this method.

Price per customer - \$200

I have three days to sell this, and then I am moving on to other things, so if you are interested let me know. Once you get it setup properly, you can make \$300 daily, but I also have a contact who spent a lot of time working on this and made \$1500 daily.

It's free but if you have \$10 then it is easier.

No, you don't have to stay with a host.

Any vouch copies? Earning proofs? What type of work is involved, how long to get paid out?

I am offering one vouch copy. The type of work that is involved is just a bit of creativity and twenty minutes. Payout is usually instantly or weekly depending on the host.

Silent - May 27, 2017, 2:23 pm

Ill take the vouch copy if possible.

I can invest \$10 right now if needed!

Shaq - May 27, 2017, 2:26 pm

I gave the vouch copy out, sorry about that man.

No, it doesn't involve any CPA. You won't need to sign up to any CPA networks. It does involve affiliate marketing to some extend but you will see it's really easy and there is demand for this type of hosting. Not illegal.

You may have to configure some things to get it just right, but it should start showing money in just a few days.

No, 100% whitehat and nothing sketchy about it. No social engineering whatsoever. You are not committing fraud or cheating someone out. It's all fair and easy. I used my bank account as a frequent way to receive money.

account?

You can but this isn't something necessary. It depends from host to host. No Ebay account is needed for this, and a PayPal account is optional. I even found an option that accepts Bitcoin, so if that is something that you are interested in, than the option is there. :)

What kind of refund guarantee can you give for me to earn my money back?

It takes a bit of work to get it just right, so the refund guarantee that I can provide is that if you can prove that the method does not work, then I will issue you a refund. However, this is not a method that either works or doesn't. I can help you become more successful with it.

You can earn \$50 daily or even \$1000 daily depending on how you work on it. :)

Skip my comment. If you have made money and can provide proof the other person might purchase.

How am I supposed to show that when my payments were deposited into my bank? I could show you a screenshot from my bank but it is a privacy concern.

Apologies if this has been answered before, but does this require any additional investment? Also, what's the estimated setup time and how long before the money can be made back (I know it's impossible to say, but if you were to estimate that would be appreciated). Thanks, seems interesting.

Hello Riddick,

There is an optional additional investment of \$10, which can accelerate the setup time. The setup time usually takes an hour or less for the first week and then adjustments along the way. When it comes to how long it will take for the money to be made back, the method is a process that slowly builds up more and more until you are making \$300 a day. It is a process, not something that will immediately happen. Some people might recoup the price in a few days and others might longer, but once you do start making that amount it will build and build.

1 more has been sold, however I am keeping it open one more day so that people who contacted me on Skype can still purchase. Support will available any time, so feel free to contact me if anyone needs anything.

W?lr?? - May 29, 2017, 7:40 pm

I am still selling for a little while longer. Let me know if you are interested. I will be closing this thread tomorrow afternoon, so contact me soon.
