OT;
Interesting that your accepting Stratis as a form of payment

Chique - May 28, 2017, 10:11 am
Changed up the thread a bit, STRATIS is being accepted due to me currently investing into it anyway.

Also I have currently 4 contacts that I can pass along that will buy this item (they are big buyers) and have gave me permission to pass along their information if someone is selling what I am.

Sadly; I can't sell anymore to them until my paypal issue is fixed so this is your chance to rack in money! ?

mvmt - May 28, 2017, 12:23 pm

Chique let me read over his method to leave a short review. There are a few requirements needed to actually start earning the method, which he gives information for this in the method itself, and there definitely is a demand for the items that you are selling on eBay.

If I met the requirements, I would definitely be using the method myself but sadly I do not. However, it still seems to be a solid method that has good potential.

Chique - May 28, 2017, 1:01 pm

First copy is now discounted quite a bit,
You can live anywhere to do this method I should mention that.

Seems like an interesting method, although you should probably inform clients of the requisites before they spend a few hundred just to find out they aren't eligible to use the method. GLWS though.

That's what I was thinking. Lmao

That's what I was thinking. LmaoThat user could still do the method but he's nervous to follow the steps to get the item.

I personally have extra of the items, but he got a review copy so I didn't really offer them to him.

That being said, anymore questions you'd like answered feel free to leave them or PM me.

Sent you a message with some questions

Jøjø - May 28, 2017, 4:29 pm

So no investment is needed. It's not a digital item. So does that mean we are somehow shipping stuff for free?

Jiren - May 28, 2017, 4:30 pm

I have been told the only thing we need to pay is for the shipping and ofc the method

(May 28, 2017 04:29 PM)?ind Wrote: [\[CITE\]](#) So no investment is needed. It's not a digital item. So does that mean we are somehow shipping stuff for free?Ebay has this amazing feature; where they allow you to deduct the cash out of the payment that was paid to you - to pay for shipping. So technically out of your own pocket you are paying nothing excluding the funds for the method which you will make back after one or two sales..

Discount copy lasts until tomorrow, I found a friend who is willing to hold funds in paypal for me temporarily; so paypal is a option but only as a LAST RESORT.

Cryptolution - May 29, 2017, 5:23 pm

Does this involves dropshipping? ?

Chique - May 29, 2017, 5:32 pm

Did you read the thread? Maybe you skipped over it; Quote:How much work does this require?It requires time, find the item or get the item from me (I have plenty left over that I can send you if you buy the method) and you can list them however you want and then make sure to ship them out to those who paid.

This has nothing to do with drop shipping.

Pulled directly from the thread; hope that answers your questions. Besides when did you ever plan on replying to my skype so you could see the "proof of income" you claimed to want to see?

All sales will stop on June 7th, regardless of the copies sold or not.

If you are interested but have questions; feel free to ask. Please don't waste my time if you don't have the funds.

queonda - May 30, 2017, 3:53 pm

Just bought the first copy and gotta say this will work. Just gotta put a little effort in the beginning but nothing hard at all.

As op said this will work regardless where you live.

I will start doing this as soon as I get some free time and will post my results

notdbc - May 30, 2017, 11:40 pm

I'm very sceptikal about this. What is free and also sells for hundreds?And on ebay where lets say you scam someone, that person chargebacks, you're fucked.

"What is free that also sells for hundreds"

I'll leave you guessing as I won't give that answer but I will say; this has nothing to do with scamming that would be pointless.

Good to hear, so far only two people have bought (and only two copies are left) so time is a ticking to be able to get this method.

After finally having more time to spare I have put some funds aside of mine for a signature (which has been made now) and a thread design that should be up in the thread later today also I decided to sell the last two copies for the same price, which is \$500. This is the same amount the copy #2 sold for which would make it fair to everyone instead of paying extra.

If you are interested in this method or have questions about this method feel free to shoot me a PM. Just please don't really waste my time asking thousands questions if you don't have the interest in even purchasing. Also please don't ask me to hold a copy, time is a virtue and these funds are needed for something important so I can go back to selling myself.

I will probably be revamping the method with more pictures to make it even more easier to explain and of course those who have purchased will get the updated version.

Here is what two of the payouts from me selling this item got me. (Totals:
\$1,150 Spoiler [\(Click to View\)](#)

Both of those buyers have shared their personal contact number and everything to instantly buy more from me via invoicing on paypal to save me fee costs.

Zenomhunter - June 3, 2017, 2:57 pm

Vouch for my boy, have done deals with him in the past GLWS.

Chique - June 3, 2017, 2:59 pm

Just had few people mention my asking price is a bit high for most people so if you are interested and have at-least half of what I'm asking for then PM me and we can workout a payment plan (please don't pm unless you have money, not giving you method for free)

Younis Khan - June 3, 2017, 11:05 pm

Chique - June 6, 2017, 2:37 am

Any more people who sit and waste my time will be put on ignore. Don't claim your going to buy the method in a day or bullshit and then end up wasting my time and not doing it.

I've offered deals to those who claim they can't afford the method, then as soon as they ask a shit load questions and I answer them all and they say "whats your email/btc addy" they never end up paying - at end of this what do you really gain? Besides time wasted trying to figure out a method by hints.

Anyway, \$250 upfront is the price I charge now out of the \$500. That's 50% off.

Rest is to be paid after you make it with method - do not PM trying to get method free or anything cheaper than \$250. Thanks.

Vamps - June 7, 2017, 2:04 pm

received method, will post earnings soon (method looks promising)

Chique - June 8, 2017, 4:45 am

One copy left, and today the discounted half off down payment price has ended.

If you cannot afford method but are interested; and you are close to the amount I'm asking shoot me a PM. - This does not PM me with you only having \$1-\$200.

You will be put on my ignore list if you try getting method for free or don't read thread properly.

Chique - June 10, 2017, 12:55 pm

Still one copy left guys. Don't say you'll pay then never end up doing it because it just wastes my time.

My original need of money was to fix my paypal issue which got fixed and then a personal emergency came up and I needed to help pay for something and which is why I am still selling the last copy past the "date" I stated.

Anyway going to make a auction for last copy as I have several people messaging me regarding it claiming they will pay but haven't yet.

Thanks to all who actually went through and purchased. ?
