Never been banned using either of those scripts.

Exactly what I said, never had a problem with Agility or Hunter. Run the Agility script for about 6 hours a day.

OSBot is pretty solid to be honest, just got to be careful about your botting habits. I've used it for a long time and it's one of the best bots around still for Oldschool.

I never had luck with Tribot, wasn't as efficient in my opinion.

Tribot has been great to me and I have over \$100 in scripts on my osbot account, I don't even fuck with them.
