Thread: [\[Rikz\] 10 L33T/3pic/ub3r upgrades or \\$25](#)

Rikz - May 29, 2017, 4:03 am

So, since I'm the new guy thought I'd give a little more to the community.

Going to upgrade 10 members at random, yes. 10 members.

You can also choose an award of your choice (\$30 limit)

The competition will end 3 days from now.

Just post saying how awesome I am and you'll be in with a chance.

Additionally, if you don't want the member upgrade I'm throwing the price of ub3r to your wallet in Bitcoin.

Bruh you really are the best for doing this, you're so much the best and awesomest that I'm going to write a huge fucking post about why. First off, nice signature fam, shits fire. Second, we got an original 4 letter name. Beyond being OG as fuck, you're also giving away all this shit to members and that's just fucking dandy candy in my book. I fucking need this and here's my god damn chance. I will win this, everyone else will not, only because Rikz is that much of a total badass. He's just honestly the 2nd best HF member below Omni, and how the fuck is he not a mod yet? What is going on there Omni? I'm serious as fuck it's total bullshit that he's not at least modding the Crptocurrency forums, but I digress.

Listen, I'm just saying you really are a cool dude and the only way you could be cooler, is by giving me that Ub3r Upgrade.
