Thread: [\[Review\] "MAKE HUNDREDS DAILY WITH BITCOIN" By MattGates](#)

Mr. Reviewer - May 29, 2017, 5:17 am

BEFORE YOU READ THE REVIEW

Spoiler [\(Click to View\)](#)

-You must understand that the reviews I make are from my point of view.If I grade 3/10 that doesn't mean the method itself is bad, maybe for other people that method is 7, so keep this in mind when you're reading my reviews.

-My reviews will probably piss off many people and break some of their businesses ...or raise them.This means I will not debate with the sellers whether or not my reviews are accurate.Unless there is really something wrong I won't recheck my analysis.

-I review good and bad products, not only bad products as some of you may suspect.In the end, remains the decision of the reader if it's bad or good.

FAQ

Who am I?Spoiler [\(Click to View\)](#)

-A random guy that bought dozens of methods in the past few months from HackForums Sellers, and with disappointment, I announce that 90% don't work or they require insane hard work to even get them started. Highly "vouched" methods, with "valid proofs" from so highly upper-class "highly vouched members/old members" or how you want to call them, methods that look good on paper but on practice leave you with a sour taste in your mouth and with dust in your wallet.

-For those that keep asking me, "who I am and how I buy for months but my account is only for a week". I've been on hackforums for awhile now, my first account was around 2009 but was disabled due to inactivity. I kept coming back.Never engaged in topics too much.Until 1'st May when I decided I should make reviews about products.

What I'm going to show you?Spoiler [\(Click to View\)](#)

Few angles to look at when you're buying a method and few insights of what each method consists of.

I will keep this short and say this - you don't have to become an investigator but in the end is YOUR money and YOUR time you're going to throw at a random guy that promises you the moon.

Vouches:

Spoiler ([Click to View](#))

-3/10

- Most of the vouches from his main post he uses are from other threads to rise sales in this product.
- Some vouches are assembled (more details at 'About the Seller' section).
- In 52 pages he has like 2 vouches from his actual thread that are simple screenshots on payment.No date, not mentioning how much they invested, nor made with a phone or filmed.

Vouches such as "Vouch for X, he always has great products!" , "You can't get wrong with X!" , "I vouch for this guy he knows what he's doing!" , "I tested out this product, it works! Great Product!" are not taken into consideration.Vouches without legit-proofs are not taken into consideration.Vouches from your other sale threads are not taken into consideration.Text-proofs are not taken into consideration. This is a community and in the end, people connect to each other either by friendship or a common interest they'll provide a vouch.

Personal review:

About the product:

Spoiler ([Click to View](#))

1.5/10

-Gives a brief explanation on few cryptocurrencies that are more popular.

-Offers basic investment tips.

-The seller provides the platforms where you can start investing.

-He says you can invest 2\$ but unless that coin explodes 50x times you won't really make a profit with such small investment.

-Overall the information inside the ebook is very basic and Crypto Currency subforum may feel more insightful if you're thinking of starting investing.

-A simple google can give you the same information that this ebook does.

About the seller:

Spoiler ([Click to View](#))

-1/10

The thread is filled with vouches: "Great product", "Quality methods", "I recommend!Mattgates!", considering this there are few flaws:

- He uses vouches that are not from his main product he's selling.
 - Some vouches are [made up](#), people who got banned in his thread and left a positive message such as "Great Product!" uses that message and adds a proof to it and then uses it as vouch-proof.
 - Avoids [questions](#) and answers [vaguely](#).
 - Avoids all the [refund requests](#) people ask for and complaints. Also sometimes makes a [wall of text](#) to hide the complaint/refund request/negative message.
- I saw this technique being applied by many sellers on HF. Since on HF there are no repercussions for this and the dirt can be easily hidden under a carpet I had to point this out just to raise the awareness.
- Doesn't give much information in his main post of what he is selling.
 - Doesn't provide proofs of earnings from his own method.

This grade reviews his way of advertising, addressing to potential customers, his behavior and his way of convincing them and the connection between him and his ebook.

Thank you Mr Reviewer, another HQ review.

Much appreciated to have someone like you on here to give the community legitimate reviews.

FiftyTwo - May 29, 2017, 5:28 am

Thanks for the review.

But would make more sense to post the review on the sales thread for everyone to see it there before purchasing, instead of making a whole new thread.

Joy - May 29, 2017, 5:36 am

Nice review dude. You make some great reviews.

I think at most he should post a link to the review on the salestthread, but not the whole thing.

Nice review.

This is awesome!!

Thanks for exposing these trash, Mr Reviewer! I love your work so much.

I wish I can support you in some way but I suppose this is the best I can do for now. Looking forward to more!

MattGates is one of the most cancerous users on this forum when it comes to product selling.

Nice review.

Will message the staff about this and see if I'll break any rules.

I still hope for that review section, things would have been seen much easier.

I think MattGates just needs to step out of the game entirely.

It doesn't break any rules to link to a review as long as said review is not sales trashing, which this is clearly not.

Don't count on the review section being made anytime soon, omniscient denied the idea multiple times, because of the potential of it being ruined by fake reviews and such.

I also have his last product, "[Monster Revenue](#)", but now that he is banned makes me think everything will be in vain.
