Thread: [How I make \\$20 a day selling Gaming Accounts | \\$10 | PP, BTC, ETH |](#)

IntelCore8700K - May 29, 2017, 7:43 am

Hey guys,

I am running a Gaming account shop for 6 months now (Maybe more). And I see that much people are doing it and it isnt saturated. So I wanna share my knowledge on how I get my accounts, where to sell them and more.

No cracking involved.

Price : \$10 PayPal or \$8 Bitcoin, Ethereum

Use code Deadly050 to get 20% off using Bitcoin or Ethereum

Payment Methods: Bitcoin, Paypal, Ethereum

Contact me through PM or Skype "Deadly.HF" for any questions.

2 vouch copies given ?

I can say if you're smart and put enough effort into this you can earn +50 USD per day! (May 29, 2017 08:25 AM)Makaveli The Don Wrote: [\[CITE\]](#) Alright. I rarely post any reviews on ebooks anymore but this caught my attention.

I will start by saying this is a short and straight to the point method with no useless introductions, backgrounds and such. This method works at the time I'm writing this and it should work for the foreseeable future. The author explained everything with enough details and images so that you'll be able to retrace his steps and possibly have the same success he's had. For the price shown, this is more than worth it and the OP delivers as promised on the thread.

All in all, this is a straightforward, no bullshit, detailed ebook. I also appreciate the OP's quickness in responding to my PM.

Good luck with sales. ? (May 30, 2017 02:20 AM)Yonko Wrote: [\[CITE\]](#) Huge vouch! Bought method and already made profit of it. Straightforward no bullshit. I've just read the ebook to review it but it delivers as promised on the thread; meaning that you'll be able to know how to make money selling gaming accounts. The ebook shows the procedure of acquiring such accounts and where to expose them for sale. Everything is documented with enough images to guide you through the process.

I'm sure you can make money from this since I'm old cracker and used to do what was explained in the ebook.

Would you say it's more for beginners that don't know any methods of acquiring the accounts and doesn't use known methods such as sentry/cracking?

It does not involve cracking at all but it shows you where to sell and how to become a seller and how to earn from it.

I'm sure The OP is more qualified to answer your questions, but what I can say is this ebook doesn't talk about cracking to obtain such accounts. If you have any more questions, you can address them to the OP as he's the one doing the selling. ?

Even a 12 year old can do this. It does not involve cracking or any thing you need to learn. The method is pretty simple if you just follow the steps. And when you did it a few times you can repeat it as much as you want ?
