Tommy DeVito - May 29, 2017, 8:56 am

Payments manual till 1st of July

F.A.Q.

What is Firenze Betting?

Firenze Betting is a growing professional sports betting advisory service. Since nowadays sports betting market is highly oversaturated with bookmakers' supply, unfortunately, 98% of bettors lose their money by choosing and placing wrong bets. We provide professional sports betting advice with the aim of helping bettors pick the right bets and not only be among the 2% of winners, but also maximize their profits.

Why are we different than other betting groups on HF?

We try to mix our bets with high and low odds, most betting groups on HF try to hit bets like 1,5 odds, we try to tip above 1,75 and not only bets on which team will win. Also we have an special service in the group for parlays.

What is your guaranteed win rate?

Unfortunately, we do not promise or guarantee any certain win rate, but for the past 2 months our average win rate has been around 72%

What is a Asian Handicap?

The Asian Handicap is a type of bet (http://en.wikipedia.org/wiki/Asian_handicap). Most professional punters prefer Asian Handicap bets when it comes to betting on football. The great thing about Asian Handicaps is that the possibility of a draw is ruled out. By eliminating the draw outcome, Asian Handicap betting reduces the possible outcomes from three (in traditional 1X2 wagering) to two. Usually, the handicap is calculated to give each team a 50-50 chance of winning. Since the Asian Handicap also helps bookmakers to minimize risk, it is possible for them to place bigger bets. Not to mention the fact that the odds are normally better than on the traditional 1X2 market

Do you offer a trial?

Ofcourse we do, unfortunately its not free but its 5\$ for a day.

Terms of Service Spoiler ([Click to View](#))- You are betting at your own risk.

- You are NOT allowed to share any bets with anyone.
- All sales are final, no refunds[/font]
