Thread: [scammed by Kanami \\$200 BTC UID: 1208894, and Bigg¥ UID: 1093336](#)

wildfirex - May 29, 2017, 1:07 pm

I bought method from Kanami UID: 1208894 here:
<https://hackforums.net/showthread.php?tid=5628555>

CORRESPONDENCE:

Skype chat: <https://imgur.com/a/YVvxh>
My bustabit profile after he withdrew money: <https://imgur.com/a/58AZJ>

I bought standard version and it was not working for me so I contacted him on skype (his skype is: live:kyoto.support) and he offered me extreme version for half price so I sent him 14 dollars.

Transaction url:
<http://www.tradeblock.com/bitcoin/tx/c34f3e4af4c155b186c6c3ba2686b5be7f007ef9b2f89feca1a20c0c035385fd>

He said he will help me via skype, I have all correspondence and I can submit it too if it will be necessary. I thought he is legit because he have big reputation but it is only big scammer!

So I watched what he is doing on skype and then he said he must put laptop on charger, then he suddenly ended call and I watched that all my money I deposited into bustabit account was deposited to this address: 124MnhinY58m2FxkyJyKTqAdG4uFqnZuMU

Transaction url:
<https://live.blockcypher.com/btc/tx/ddf6ce35ea6b8f08d541a1e84a51038dad73da4c99103265fee4c004f4e463a5>

Then I wanted to post on his sales thread that he is scammer but I received negative reputation from user Bigg¥, UID: 1093336 with words: "Go Fuck Yourself" (-3 points)

Here is proof:

Yes I know it was mistake from me that I trusted him, but all I want is to ban these two fuckers because they can scam other users too.

Hope hackforums staff will help me.

Thanks.

That is a pity, anyway I want to warn people.

I added correspondence.

(May 29, 2017 01:22 PM)Gloryallowed Wrote: [\[CITE\]](#) How is Biggy involved in this scam report?
Looks like he just gave you a neg rep.
He added it to me after Kanami scammed me. I did nothing to him.

He gave that negative reputation to me to not allow me to post anything on Kanami's thread. If you have negative reputation you can't post even to deal disputes.

notdbc - May 29, 2017, 4:07 pm

He scammed you of a merely 200\$? Big Kanami that has methods on sale earning him "thousands" of dollars every day? Noooo.

DriftedTaco - May 29, 2017, 8:45 pm

Big Reputations are deceiving, Its really a shame sorry about your money dude. Kanami has been ducking me because he sold me that bustabit method and I tried to get a refund because i have TWO ebooks exactly same method, Asked for receipts so showed him and said the screenshot looked "Fake" now hes just ignoring me. Really sucks. I would be fucking livid if someone scammed me out of 200\$ though. Just dont trust rep guys its deceiving.

Can someone page him or let him know that there's a deal dispute. I want to know how he will defend himself.

hopeforme - May 29, 2017, 10:12 pm

Damn, that's such a pity. You guys should have checked out this thread

<https://hackforums.net/showthread.php?tid=5633577>

I got scammed too for the same product, but i didn't think someone would stoop so low as to actually steal from your bustabit account \$200 directly (actually I did, someone stole my \$400 directly by the same method).

That's a huge amount of money. With \$200 you can buy my ebook which would not be a scam at all. I am sorry for your loss OP, hope you can earn your money bak somehow.

.... thats not a valid reason, not really giving anyone a reason to believe your not involved. And negging someone just beacuse "they should go fuck themselves" and no actual reason isnt that against some rep rules?

Pretty much the only rule for rep is that you cannot directly accuse someone of scamming without linking to a deal dispute thread.

I can neg rep you saying
"YEEEEEEEEAAAAAAHHHH" and it is totally valid.

I mean, they show you how to get rich when they are not rich.

It's not funny anymore honestly.

And let's be serious, who will sell you a method that makes him a lot of money?

And I was a "Friend" if we can call that with Kanami, thought he's legit and stuff, but after this, I will wash my eyes.

Yea i totally agree, It just sucks to see people like this have high reps because makes them appear trustworthy to people which obviously quite a few aren't.

Why would it be? Kanami has almost no neg reps, Biggy has no neg reps at all. Few deal disputes here and there and they can get back to business as usual. Probably if you neg rep them you will get 10 neg reps back and a PM to message them to resolve this.

I opened this thread about Kanami's selling here 3 months ago:

Needless to say people were more concerned with "why don't I read the [Help Docs](#) and go fuck myself" than with what the thread was about.

This is the community with some of the most toxic people ganged up in groups to legally scam people.
