I have many diamond, master, and challenger boosters ready to play, including myself. DuoQ is 30% extra.

What rank is your main?

And what rank would you suggest to start boosting at? I'm not asking for me as I'm silver but I have a friend who is near D2 and I'm almost certain he could boost up to Dia V. But I want to hear it from someone who has a bit more experience.

Main is D1. It depends. Not every D1 player can boost up to D5 with a good win ratio. I'm not a one trick, and I also play every role at a D3+.

I have some boosters who are master/challenger also.

Got a vouch, he played 3 games 2 wins and 1 loss, with the loss having a leaver and 2 trolls. He got a penta in one of the games and a 10/0 and 19/4 score. Huge vouch!
