This looks amazing dude.
Much better than anything I could have done.

Nice work!

Amazing. I love it. It's spot on when it comes to the theme.
The only thing that I would do is to find better logos for payment methods.
Maybe also work on the chains a bit, make them a bit larger.

But seriously, other than that, well-done. It's something that you do not often see here.

It looks very sleek and on the spot as far as matching the overall Hearthstone design aesthetic is concerned.

Good job!
