Google Fiber I'm guessing?

edit: nvm I see it is in the url

I believe they have it where I live. Might get it.

It says google fiber in the URL

edit: oh I see

B?ue - May 31, 2017, 9:26 am

Fucking hell nice...

Hopefully one day it expands outside of America

RIP, It's normally 30 down on local servers

Kryptonnet - May 31, 2017, 9:30 am

Well I'm here with my 1mb down and up. With 5 of us in the house using it and there is one person always using youtube

I know that feeling haha. On a lucky day I'd get 2-4 MB and 1 UP.

(?°?)?(???? - May 31, 2017, 9:34 am

I think I beat you OP.

XeCheats - May 31, 2017, 9:47 am

oh god 4gbps download

same. shitty interneters unite.

Skumzy - June 3, 2017, 5:39 am

Internet Goals right there. Currently I'm on 2-4Mb/s down and like 0.5Mb/s up, but hoping to get 50/20 FTTP installed within the next 2 weeks.

GrandpaSherman - June 3, 2017, 5:45 am

Nice. What MB/s does steam download at for u?

Ravioli - June 4, 2017, 5:47 pm

Are you stealing NASA's internet OP?
