I'll proofread absolutely anything for you. I'm doing this because I know there's some people that aren't fluent in English here or people that just don't want to proofread. I also have nothing better to do with my time, and I believe that my spelling, punctuation and grammar is good. Just PM me what you'd like me to proofread and I'll do it. I can also change stuff if you want me to.
