Beautiful Program, I'm sure it works flawlessly.

GLWS my man!

Edit: Doesn't this thread belong in the 'Premium Tools and Programs' section though?

GLWS, was going to ask what about 2007Scape but then again, if a RS3 acc checks out, then they might have an OSRS one.

OP, if you could check when the last login date was for RS3, maybe check to see if it's more than 30 days, if so, add a hint to said account that it may have an 2007Scape account?
