Dont be a pussy and just fight him. You could knocked him out in a few seconds which would been a better option then making a 10 minute long youtube video about it.

Dont fight him mate. This will make him see you as a more mature person . Fight has never solved a problem. It destroys and brings you back to the cause of the problem after fighting. So ignore him

Fight him but get someone to record the fight and then post it on youtube

imo you're not a pussy for not fighting, but for fighting. Im more than capable of defending myself but why risk prison?

most of the time you don't need to fight. it's barbaric and imo child like to fight outside of doing it for sport. especially someone the size of a 12 year old. stop trolling guys this is HF not 4 chan. thanks.
