Curious to how you will do this next month.

INCREDIBLE - June 1, 2017, 7:43 am

E-Whoring and Adult content earnings. meh.. how do you even digest them to be honest? that's sick. I wonder which religion of the world profess and legitimize that kind of stuff in the first place.

or its just you are in your 20's and have no clue as to why you should brag about it?

\$100 on traffic and get no leads, gotta fail and fail over again to learn, turn your life around boi!!!

That's amazing man, I just don't know where to start. I was thinking of doing e-commerce or CPA, I have a basic knowledge of how it works and I once tried drop-shipping but fucking fb ad account got banned for no reason.

Hopefully i can get something going soon

If he's making that much who gives a fuck what the niche is. I'd do a fidget spinning vaping chewing tobacco niche and as long as i'm making that much I'd keep bragging. Someone is a little salty. ?

Altho not relevant I just liked the image and stole it for my hf profile pic

I don't know the first thing about hacking but thanks haha.

I tried CPA but I honestly couldn't do it. With no investment money and no idea on where to start I gave up.

Aye mate that was the sarcasm reverse hacking my images for my methodzz0z0zz

i would start with google, youtube, affiliatefix hackforums and famous cpa marketers blogs such as charles ngo, spend a few weeks reading, learning terms and how the general process works, then pick a vertical such as dating, gambling, health, gambling etc etc and start launching, be prepared for hard work tho, this is 3 years worth of shit to get to this point for me

Some people get masters and still don't even make close to what you make.

So the 3 years were definitely worth it. ?

very true my man, its a huge risk and sacrifice doing this, 3 years is a huge amount of time and it could of all been for nothing, but its the risk im willing to take so that myself and my family can live a completely free life uncontrolled by money ?

Congrats!Sorry not going to release the name of the network to anyone on hf out of pure respect for the owner and privacy :P

but if you want to start in adult go with crakrevenue and start building up revenue so that you can use that as proof to get into other and frankly better cpa networks :)

in simple terms you're paid a commission by a product/service owner for getting their business sales/leads
