Thread: [Requiring Some Assistance \(ATTEMPTED HACKING\)](#)

Pronouncer - June 1, 2017, 6:14 pm

Basically im requiring some assistance on a dox/hack.

I will be trying my best to do all I can singlehandedly but I would like some assistance.

Why so I need this?

Well let's start of at me being targeted by someone.

They have attempted to jack my paypals, Gmail, bank account (my bank phones me up about money trying to be cleared.). The only thing he managed to get was my Xbox account. He had se'd my phone and sim swapped to attempt to bypass my auth which was successful on a Microsoft account of mine

I have contacted police but I believe this is an international case so it won't get far.

I have a few pieces of information on the user and will attempt my doxing and tracking tomorrow. K would appreciate some help and will reward anyone who can assist me.

Please post below if you wish to help with this.

Edit: if there is a better section to post this in tell me please

I'll see how far I can get with both the doxing and hacking parts. PM me what you have so far.
