Thread: [Sia has Huge potential.](#)

problems.x - June 1, 2017, 6:29 pm

Who else has a lot of faith in Sia?

I believe that Sia has huge potential, it has competitive prices that beat services like Storj and shit (I'm not going to go on about the pros and cons of each one but Sia has an advantage.).

Sia have a lot planned to release this month, and their service is gaining more and more notice, yes the poloniex wallet issues haven't been good, but once that's completely fixed for a few days there's going to be even more increase.

By the end of this year, I can see Sia hitting 25 cents. What are your opinions on this coin?

Admirably - June 1, 2017, 6:30 pm

Even if it doesn't have that much potential, still a good coin to get profit. If you get it below 1 cent, even if it reaches 10 cents that'd be a nice \$\$.

Besides that, i like their concept/tech. I hope big companies do not be again'st it tho.

BlazinBlunts - June 1, 2017, 6:30 pm

Yeah, grabbed like 8000 SC hopefully one day it will be .10 cent or more. HOPES. Overall, I like the concept and think it has potential.

Royal Mint - June 1, 2017, 6:33 pm

Currently holding onto 20k sia, I guess I have some faith in it at least. I'm looking forward to the updates coming this month.

Talent . - June 1, 2017, 6:41 pm

Currently holding 1.2 mil sia if it even hits 5 cents i'm set.

Omniscient - June 1, 2017, 6:42 pm

Pump and dump not allowed on HF. Six month ban.
