So after listening to this song, I think she could do a great collab now with chainsmokers, thoughts?

She should keep on the path she's going instead of working with trash like the chainsmokers :/ They do make catchy music that gets plays, but I don't think Miley needs the publicity, therefore I don't think she needs them and should stick to quality music.

Chainsmokers make quality music,

Definition of music

Quote:vocal or instrumental sounds (or both) combined in such a way as to produce beauty of form, harmony, and expression of emotion.

Together I feel like they could make something quite nice.

To each their own.

Can't stand the Chainsmokers. In my opinion they just jumped on the housey sounding generic music and all their songs sound the same to me. I'm not huge into music so what i'm saying could, and is probably incorrect.

I'm running an event with Chainsmokers at the end of this month, not a fan of them but whatever brings the money in I guess.

I stated my opinion I'm not going to argue over it lol.

I'm not a fan of either of them so to me a collab with the two wouldn't be good. Lol
