Thread: [\[Everyone\]\[Updated\] Free Premium Images and Books from Shutterstock & SitePoint](#)

Elweth - June 3, 2017, 10:25 am

Previous method from [this](#) thread stopped working because of high demand, so I gathered another method to generate premium Shutterstock HD images for your school's report or graphic designs, with absolutely no watermark!

In addition, this method is able to obtain you premium tutorials and books from SitePoint. A site that sells books and courses for programming, entrepreneurship, web design and SEO. As well as graphicstock, another neat site for your graphic designing needs, or wallpapers :)

Method here. No need for PM or REP ?

Spoiler ([Click to View](#))

1. Click [here](#) to visit the J2 Chatbot
2. Chat with it! Use keywords like 'shutter', 'graphicstock' or 'sitepoint' to activate it
3. Send it the image/book URL and you'll get a reply with the download link
4. Enjoy learning & designing!! Do bump this post up so others can do the same too! ??

Legend. Thanks for sharing this.

S????i - June 3, 2017, 11:00 am

graphicstock seems to not be working on the chat

DontWorryBeHappy - June 3, 2017, 5:08 pm

thanks for another direct tutorial

do u know if we can get eps/vectors from shutter other than just the images?

Horus God - June 3, 2017, 5:11 pm

Thanks for sharing this ?

do u know if we can get eps/vectors from shutter other than just the images?

That shouldn't be a problem.

Danny Khalifa - June 4, 2017, 7:41 am

Thank you very much for this bud!

That shouldn't be a problem.

what do you mean shoudn't be a problem??

this site will only download the image, not the vector file.... correct?

ye i would like to know this too. There is some that are bundles and you only get the jpg of all of them together.

Netherless it works most of the time for other stuff.

dosealas - August 17, 2017, 11:26 am

I'm impressed can you give a small note on how the mechanics work?

Saske20 - August 17, 2017, 12:48 pm

You mate is a hero :D

vouche for you

Space• - August 17, 2017, 12:54 pm

Thank you for the method, this is very useful.

DOZ1T - October 20, 2017, 9:02 am

Is this still working? When typing the keywords I get "This person is available"

gm1shd - October 24, 2017, 5:23 pm

I get the same "This person is not available" error and the name does not display either. Not sure if this is working?
