Thread: [Winning \\$400 in Paypal cases](#)

Zenomhunter - June 3, 2017, 10:55 am

Hey guys, I will be opening a service soon for this, so might as well show proof I can by winning my own one ;).

I don't have the original negative balance, but this shows that the case was initialized by the sender and I won them all, you can tell because the net is positive again.

idk if it's allowed to do this but if it is that sounds cool. ive won all my cases against g2a except one but i think im gonna stop using them cos if they start responding to tickets its time to pull out of there. oh well it's w/e, i bought like 20-30 games on there, bunch of gifts, sold some to some people, and in the end all i lost was \$7.75.
