Thread: [removing peanuts from m&m s](#)

Bossk - June 3, 2017, 1:05 pm

magically got myself 3 shitty big bags of peanut m&m s, but the problem is i dont crave candy i crave the fuckign nuts inside them. and i want them in their entirety, blast your brains here; how am i gonna do this?

Key Punch - June 3, 2017, 1:07 pm

- 1.Microwave them in a bowl.
2. Run it through a strainer.
3. Rinse the chocolate off the nuts.

Wait?!?! do Nuts melt????

Sell the m&ms to someone and use the money to buy nuts

Ainaj - June 3, 2017, 1:08 pm

Use some sort of tumbler with frozen m&ms, should crack the chocolate off. You'll just have to filter it after

You could put the rinsed nuts in tin foil and place it on the grill to make it crispy

I assume OP likes them how they are, so doubt he'll like them after they've been microwaved, rinsed, then grilled.

jawsh33 - June 3, 2017, 1:15 pm

OP, cut your nuts off and chop them in small pieces.

Grand Pootis - June 3, 2017, 1:16 pm

Use your refined sucking skills to snap them open and suck the nuts out, and make sure you spit at the end.

Shatter420 - June 3, 2017, 1:30 pm

Lol just buy a bag of nuts instead of getting the m&ms

Nartico - June 3, 2017, 1:31 pm

WTFFFFFF, the peanut m&ms are so gas

LSDoom - June 3, 2017, 1:31 pm

just wash them in hot water with a strainer? i dont see the issue here.
