Thread: [Bitcoin Investment \[Minimum 0.01\] Earn 7.2% Daily on Investment Forever](#)

Hello guys, this is my first post and I'd like to share a Legit website which pays you 0.3% of your investment every hour once you have invested some BTC on it.

The Website:
[deleted]

The website is 100% legit and I've been using it for the past week with a large profit.

This is how you earn BTC on a One-time investment on this website:

If you deposit 0.1 BTC on it (Minimum is 0.01, but I invested 0.1)

You get 7.2% Every Day (0.3% Every hour) on your investment.

So, for 0.1 BTC you will earn 0.0072 BTC every day. So you basically Earn 0.216 BTC every Month (0.0072 x 30) on an investment of 0.1 BTC

Great way to greet a new member who is trying to contribute. Didn't expect these forums to be toxic. Also, what scam? Did you even visit the website? >.> Just do a quick google search for the website and then come back and post.

Their site looks amazing, just sad to see that this is probably something called an 'Ponzi scheme', which is strictly disallowed to share on HF.
