Thread: [Infinity Ward CEO and owner](#)

ChapBureau - June 4, 2017, 11:15 am

Hello everyone I am looking for support, I cannot seem to find the owner of Infinity ward he is the Call of Duty game engine head. His picture or main stage has yet to completely reveal itself. I am looking for a picture, this will help me with the beginning of my seeing as I need to save files to enter. Any Ideas or creativity with this will help. I am interested in game development.
