Thread: [Silent Doc Exploit =>| Silent & Hidden Execution |<==>|](#)

milandvb007 - June 4, 2017, 12:11 pm

Website : <https://silentwordexploit.com/>

By using this Silent Word Exploit Builder you can easily convert your exe to doc. It is coded by us from the early beginning and we use custom methods to provide a great stability for all Windows OS. Also the FUD is long in duration. You can import every exe file and attach to any email provider out there available for everyday use. Using Microsoft Office you get a huge rate of penetration success.

Good program, been FUD for a few weeks and will help you out immediately if you need anything. Programs a solid 10/10 for .NET.

He's also got some good ideas he's working on for future releases.

(Apr 27, 2017 10:56 AM)? [\$(1000)\$] ? Wrote: [\[CITE\]](#) HQ xplot!

Works like a charm and I highly recommend anyone searching for this type of software to buy now!

100% FUD

(Apr 16, 2017 07:18 AM)s??!s? Wrote: [\[CITE\]](#) This silent exploit claims true what really it is.

I just bypassed avast, eset complete security premium, kaspersky, norton antiviruses in runtime. All tests were passed by this cryptor.

Gui is very good with all suitable options.

Its a super value for money.

Huge vouch for the cryptor and its owner.

You rock buddy.

Best of luck with sales.
