Thread: [Scammed 10\\$ by: Deadly050 uid=3004036](#)

**Nagath** - June 6, 2017, 2:15 am

Hey guys, sad to post this here but it seems i've been scammed by user Deadly050.

Bought for 15\$ a Fifa 17 account+Unknown battlegrounds account, received after some days the Fifa 17 account, then like 15 days after he sent me a super active steam account that got recovered in hours. Still waiting for the 10\$ refund...and almost a month has passed since i've sent the payment.

He said he is broke but still asking for exchange pp-btc ?

I can vouch for this as well since it had occurred to me. I will be making my own scam report shortly.

Long story short, I had bought three GTA V accounts, two of which had their account information switched almost instantly after purchase and he refuses to respond to me now.

Sad that this is all over a few bucks...

I will get money and pay you back ?

These both don't go well together do they?

You are either lying to your customer or lying about the E-book.

Yeah, I should sell and ebook that will teach you earning 400\$ a day for 40\$, Would be a very nice boost in my earnings!

**McRoyal** - June 7, 2017, 8:17 am

I can vouch for the eBook since it teach you many good things you can earn from but Deadly is broke since he bought accounts off site and they did not work like he want so maybe give him a chance I hope he do the right thing by refunding you guys.

The E-Book might have been quality but there was no need to lie, that's just scummy.

lie in what exactly? You can make more than 20\$ by this ebook per day even! I am not saying this to defend his situation but because I already saw the ebook.

Well if you can make more than \$20 a day, why is he broke lmao.

Because he lost his investment money I think or whatever he got a reason I was just clearing out some points I don't know you can ask him.

I get it if he was in tough times and had money struggles but if he said he does not make any sales and then in the E-Book it says "\$20 a day" that is just scummy right off the bait.

Yes

If you watch on screenshots he says he will refund. And on TOS on thread "1 Month warranty if the account stops working you will get a replacement. Contact me for more warranty" the account was so active that it was an obvious recovery

**Nagath** - June 12, 2017, 1:10 am

Still waiting for the refund

**McRoyal** - June 15, 2017, 7:05 am

He said still selling in his thread sounds like he is a scammer and want to scam more people.

**Nagath** - June 20, 2017, 10:50 am

Still no answers from Deadly, be careful dealing with this user

**Nagath** - June 23, 2017, 10:37 am

I guess me and my friend @Instill won't ever see the money again. Pretty sad to scam 10 dollars actually :)) Be careful with user Deadly, i will let other hf users know when he will try to sell something again
