Thread: [Scammed for \\$18 by Deadly050 uid=3004036](#)

Here is a link to his profile - <https://hackforums.net/member.php?action=profile&uid=3004036>

Well, I had originally bought three GTA V accounts and two of them almost instantly after purchase had their info changed. After contacting him regarding the situation, he had seemed to stall me every time I PM him and had claimed he needs to contact his supplier. If you look on his ToS based on his selling thread, he does offer a one month warranty for all accounts sold and it has been a week since the incident occurred.

PM's of me purchasing - <http://prntscr.com/fgh3gz>

This is where he attempts to avoid me by making up excuses - <http://prntscr.com/fgh3qz>

Sorry for your loss, but I doubt somebody (especially an ub3r) will scam you for 18\$. I hope you will get this resolved.

He is probably buying these off the site "won't disclose". They require video proof and shit and i am guessing he doesn't have it.

And he is too broke to refund the money.

this is why you don't resell if you don't know what you're doing. lol

Honestly you needed to resolve it before they opened a dispute.
