- [I have been working on PredictClear.com for a couple of months and I feel happy to announce the public release.](#)

- [What is Predict Clear?](#)

[Predict Clear is a forum that allows you to predict your outcomes for various sports/e-sports/non-sports and earn points for doing so. Essentially, if you enjoy gambling or feel like you can give good tips to those that do, it's the place for you, I'm after creating a community that helps each other beat the bookies.](#)

- [\(tl;dr i want you to give me great tips for mad profit\)](#)

- [\(\(that was a joke\)\)](#)

- [There will be weekly competitions for cash prizes and there's currently a competition out for the first to achieve 30 Prediction Points for £5 \(around \\$6.5\) but there will be more like it once we grow.](#)

- [\(\(\(i'm not sure it was a joke now actually\)\)\)](#)

- [Anyhow, it should be a fun, new type of forum, I hope.](#)
