Thread: [Is any of these VirusTotal scans suspicious?](#)

**James Burnham** - June 7, 2017, 12:56 am

Scan no1:

<https://virustotal.com/el/file/45a6fae866ee62825777076661cfa631e576acb07347559e3a8ba476ad54a264/analysis/1496821230/>

Scan no2:

<https://virustotal.com/el/file/4f858c3c7f2fabea2f493d9bd7c85f098836b535e43a06385f78cca125901133/analysis/>

**gringo** - June 7, 2017, 1:16 am

Scan the executable on hybrid analysis, it'll give you a better reading than just virustotal.

**5chn4pp** - June 7, 2017, 3:22 am

50% of those are false, but I'd like to know where you got the files from, and scan them with hybrid analysis.

**MOKA** - June 7, 2017, 6:52 am

Well it depends on what the files are if they are hacking stuff they are most likely to be false but then again they could be crypted.

**James Burnham** - June 7, 2017, 7:45 am

These belong to a turboer.

Here is the hybrid-analysis:

<https://www.hybrid-analysis.com/sample/4f858c3c7f2fabea2f493d9bd7c85f098836b535e43a06385f78cca125901133?environmentId=100>

What are your thoughts?

**5chn4pp** - June 7, 2017, 10:30 am

(Jun 7, 2017 07:45 AM)? Mr. Burnham ? Wrote: [\[CITE\]](#) These belong to a turboer.

Here is the hybrid-analysis:

<https://www.hybrid-analysis.com/sample/4f858c3c7f2fabea2f493d9bd7c85f098836b535e43a06385f78cca125901133?environmentId=100>

What are your thoughts?

It's labeled as Riskware.HackTool.Agent which is a potentially unwanted application. It's not likely it's malicious, but there is a chance, hence the usage of the word "riskware".

**Aura** - June 7, 2017, 4:15 pm

It's useless to upload .rar archive to VirusTotal.

Also:

Code Generic CIL Executable (.NET, Mono, etc.) (63.1%)dnSpy it.
