Thread: [Tutoring| Earn \\$100 btc a day](#)

Wolf - June 7, 2017, 8:05 am

I'll teach you how to get \$100 a day, in btc (value of btc changes, hence it might be a little bit less or a little bit more than \$100).

What you should know?

1. This is illegal, however, no carding is involved.
2. I'll teach you everything you need to know, so it's pretty safe to assume that no special knowledge is needed to do this, except common sense.
3. Sales start on 27.6.2017 if it doesn't get patched by then.
4. During the time of creating this thread and day when sales start, I won't touch the wallet where the btc starts flowing in.
5. When sales start, no matter if you have money to buy the tutoring or not, feel free to ask me for ownership of the wallet in question. I'll provide it to you, by sending you a blockchain link and the micro transaction we agree on, coming from the wallet in question. But, you have to agree to post on this thread and verify that I own the wallet in question.

What will you see?

You will see around \$100 (few dollars more or less) per day, for 20 days and from that wallet, you will be sent micro transaction we agree on.

Price of tutoring is \$1000 in non reversible payment methods. Not negotiable.

Do not message me regarding this method, before 27.6.2017. date when the sales start. Your message won't be answered.

Don't take it personally but you do not seem very trustworthy yet!

Anyways GLWS
