Bruh. I use to have hundreds of HC Sofas and thrones.... I had multiple rooms filled to the top with furni and presents and they banned my account till 2021 back in 2009 lol.... I emailed them about my account and they said they no longer can unban me. I had already donated every single bit of furni since I wasn't going to play no more, I just wanted my account unbanned cause of my rare as name
