Thread: [Any Skyline R32 Owners on this forum?](#)

account8492 - June 8, 2017, 8:15 pm

Hey guys, curious to see how many R32 Skyline owners are on this forum.?

Currently building an RB20DET R32 Gtst

RB20DET
RB20DET rebuilt gearbox
Nistune ECU
RB25 turbo
Short shifter
Au falcon coilpack conversion
Battery relocated to the boot
Braided turbo lines
Front mount intercooler
Custom forward facing plenum
JIC coilovers on the rear
Cusco coilovers on the front
Whiteline rear sway bar
Apexi rear strut brace
Cusco adjustable rear camber arms
Tomei kaira dash cluster
3.5 inch straight pipe exhaust from the catalytic converter
Genuine R32 GTR front bumper
M-Spec side skirts and rear pods
Resprayed back in 2014

I dont own a skyline. But would love to see pics of your project.
BTW welcome to HF noticed its only your second post ?
FYI there is group on here thats all about cars.

Am happy to Pm you some photos, unable to post images due to low post count.

J?son - June 8, 2017, 9:05 pm

not even running BC racing coilovers

neck yourself retard
joking obviously.

neck yourself retardThose BC racing coilovers are for my S15 ?

Why would I neck myself over coilovers??

Come on Jason, your suppose to be a respected High quality HF member with a high reputation.
Not someone who puts new members down about the suspension they are running on there car ???

eitherThanks for the heads up, didn't even realize.
Got some posting to do ?

I don't see the problem? I run BC racing coilovers on all my cars

Cameron - June 8, 2017, 9:45 pm

Nice build and welcome to HF. :)

Mind my asking why you decided to stick with the RB20 instead of a 25? Those conversions are

reasonably cheap and you'll get a shit load more bang for buck. I've had a bad experience with a 20 so I'm probably slightly biased too.

Also, got any pics of her? :D

BC makes some good middle priced coil overs (their BR series). I am thinking about picking up either BC coils BR's for the Evo but still on the fence between BC, FA or Stance.

Also.... people who run coils overs don't have it set right. You NEED to have your car corner balanced when you put on coil overs.

I would like to convert it to a RB25 one day or an RB30 with an RB26 head, I am from Australia and the laws are pretty strict over here so I would need the car to be certified and inspected to drive it legally if i did an engine swap, costing more money.

Will update the thread with some photos once I reach the 50 post limit to be able to post pictures haha.

We recommend you take the time to read the [HF Help Documents](#) section. The answer to your questions should be contained in there.

I'm an Aussie too. 25/30 conversions are also pretty easy to get mod plates for tbh. Are you on your P Plates by any chance?

account8492 - June 9, 2017, 4:12 pm

Minnesota Nice - June 9, 2017, 4:22 pm

My buddy had an RB20 S13 and another buddy of mine just bought an R32 sedan. Kinda cool cars, I want one but don't want to deal with the RHD bro tax :/

Tay-K - June 9, 2017, 5:32 pm

Thats a wild setup if you arent lying. Got a wrx atm and am planning on doing some serious building shortly.
