Thread: [16 STEAM GAMES - \\$0.99 - BUNCH KEYS BUNDLE #6](#)

LePotato - June 9, 2017, 10:17 am

Hey there,

Gonna start posting the deals I find on here for you guys to use in the future.

16 Steam games for only \$0.99!!!

I've used this website once and they have managed to come through with the games fast.

Anyways here it is: <https://www.bunchkeys.com/>

You can buy multiple bundles at a discounted price too, but the downside is they only accept PayPal.

Here's the line up:

Midsummer Night
28 Waves Later
H.I.S.T.O.R.Y T.O.R.C.H.K.A
Ball of Light
Overhell
KORABLIK
Cubium Dreams
Experience
Abandoned Knight
Iron Impact
The Pit And The Pendulum
Cat Goes Platform
Alien Run
Lost In Woods 2
Physic Monster
NUKED KNIGHT

Most of them I've never heard of but some of the games have decent reviews, so if you're bored or like to collect games for your steam library, check 'em out!

Stay tuned for more deals!

EDIT: Bought it and got my keys no more than 1 minute after purchase :) (And yes... I have claimed the codes already, but nice thinking!)

Well, you'd be missing out if you couldn't see the steal that this bundle is. I mean, \$0.99 for \$50+ worth of games is a bargain in my eyes. Most of the games have positive reviews too! Either, you do you :D

Ah! It seems they have run out of bundles to sell. Seems as though they only have ~2000 in stock. Unlucky man! They have a new bundle in 2 weeks apparently.
