Thread: [Being called a scammer in my rep from a member I do not know.](#)

Black Shadow - June 9, 2017, 11:24 am

He posted on my thread I was a liar so I negged him he respond by calling me a scammer in the rep he gave me.

I remember reading somewhere that this is against the rules

- Scammer Reputation: You're required to leave a link to a Deal Dispute thread you have created to infer someone is a scammer (ie: scammer, scams, chargebacks, scamming). Please note that a Deal Dispute link must be your own thread you've created. It cannot be a thread opened by another member.

Given that those threads aren't made by him, it's invalid.

You need to PM omni about this but you may be out of luck with that Ignore list problem ?

His neutral reputation, that was given to you, is indeed against the rules.

Send him the PM that was written, at the bottom of the same help-page that you copied the rule from.

Quote:I am sending this PM to you because you've given me an invalid scammer reputation. Policy dictates that I send this text to you. HackForums policy requires that all scammer inferences in reputation require a link to a Deal Dispute forum thread that you have created. Either you didn't leave a link or the link you did leave is to a thread not created by you. As such you have 24 hours to alter your reputation to be within policy. Failure to do so will result in your reputation being reported to an admin which can result in severe action against your account. If you'd like to confirm this policy please read this help doc:

Maybe you could PM him for me, but I am sure he will see this thread.

NurSpec - June 9, 2017, 11:45 am

Not his thread so this is invalid afaik.

YayHar - June 9, 2017, 11:46 am

He didn't make those threads so it's invalid scammer reputation.

/thread

Prawnster - June 9, 2017, 11:46 am

You sent him the PM that you suppose to send or just gone straight to making a thread?

YayHar - June 9, 2017, 11:47 am

He changed the reputation, you can close this thread now.

Cylow - June 9, 2017, 11:47 am

Stop the attention whoring. You were supposed to send a PM as stated in [Help Docs](#). Fixed.

Skrrrt - June 9, 2017, 11:48 am

It's not invalid anymore so

/thread
