Hello HF

I've just hit 2k posts on my HF account.

I'm going to keep this brief but I love this forum.

I love checking it every day for news about anything.

I'm going to try and be more active in the anime forum community section.

Thank you all for making HF awesome for me :)

So where's the feedback ?

SirAndrew - June 11, 2017, 7:47 am

Congrats on hitting 2k! Will keep an eye out for your anime stuff, slowly getting more and more into it myself, so thanks for the reminder and congrats again!

Is this really a feedback thread? What are you giving Omni to improve the site?

Prophett - June 11, 2017, 7:55 am

Congratulations. I'm on my road to 10k ;)

Just hit 3000 today. Congrats man.

This is more of a bragging thread rather than a feedback thread, as I can see absolutely no feedback whatsoever. Congratulations on the 3,000 posts, it's a great milestone however I'd strongly consider adding some actual feedback towards HackForums.

Congratz on your 2000th post, though as others said above me, it's not really a feedback thread if there is no actual feedback in the OP.
