Thread: [List of Sites to Sell Skins?](#)

JohnBarr - June 12, 2017, 11:47 pm

Hey, can I get a list of some/the best sites to sell some skins on? I have about \$500 and want to cash it out. I appreciate it. I don't think this is a `marketplace style thread` if it is though, I'll gladly close. Just looking for people with experience in a certain site so that I can safely get my money :)

I think OPSkins is the most popular. Only used them once or twice in the past but they have been fine for me.
