Hello, what do you think about john wick chapter 2 and what scene do you love from john wick chapter 2?

My opinion john wick chapter 2 is a cool and high quality movie. I love the scenes when winston says "no blood on continental ground" sounds cool.

I watched it yesterday, very nice and clean film. I like the whole film, but especially the final scene, where Spoiler ([Click to View](#)) everyone looks on their mobile and Jhon Wick runs away. I think it's quite better than the 1.

First movies are always the best due to introduction of the character and unexpected events. I just read that John Wick Chapter 3 will be a good movie to tie in and close the series.

In part one i like when winston say "there is no business can be conducted on continental ground". Sound very cool.
